

Coffee With The Principal/HSA Meeting
November 16, 2016

Ms. Drapiewski introduced herself as our substitute principal. Our new principal, Ms. Stephanie McKenna, will be joining us in December.

Home & School President Laurel Landau welcomed everybody and introduced the board.

At our Election Day Bake Sale we made over \$3500. We were at two locations, McCall School and Jefferson Hospital. Jessica Mosur and Priscilla Lo did a wonderful job coordinating it for their first time and we had made donations of baked goods. Sheri Feinberg reported that the Halloween Party was a success and we made around \$800. Andrea Layden reported that the Aqua Welcome Dinner was also successful. We had 31 attendees. Andrea Layden also discussed our recent Cherrydale fundraiser. All items were delivered to the students this week, to the homeroom teacher. We don't know the profit, but we did well.

We discussed upcoming events. Merle Becker announced that tonight a local resident is hosting a Jewelry Party at her apartment building to benefit. Laura Sepe reminded attendees that on November 19th we were go to our annual Sixers Game. Marci Seder explained our upcoming Winter Clothing Swap, which will take place during report card conferences on November 21st to 23rd in the lobby. Please bring children's outwear in good condition.

Laura Sepe provided a treasurer's report. Thank you for your generous donations so far. The money is coming in! We are up to \$48,000 out of our \$60,000 goal for our Fall Annual Drive. So far we have spent money on Playworks, classroom textbooks, materials for the Spanish program, and other miscellaneous school expenses. We will be paying for the air conditioning units.

Laurel mentioned that Bambi Yost will be back to discuss the Schoolyard Master Plan on November 21st to meet with parents and staff.

Picture Retake Day will be on Tuesday, November 22nd.

Please remember about our ongoing fundraisers: scan receipts for Shoperoo, collect BoxTops, and now we have Caviar, which will give McCall money based on food delivery orders.

Nurse Benjamin then gave a presentation to the group about head lice. She urged all parents to be diligent about checking for nits and lice.
